Total War: Rome 2 Cracked To Play With Patch Total War: Rome 2 is a turn-based 4X strategy game, a real-time strategy game and a grand strategy game, where battles are won and lost through the strategic use of an army by one side over an opponent's forces. Developed by Sega and Eugen Systems in the spirit of the Total War series. The single player game is set during the Roman Empire civil war between the triumvates of Octavian, Antony and Mark Antony, and are considered to be the first-person strategy series, with later entries branching off into real-time strategy and empire building simulation games. Features of Total War: Rome 2 include diverse and comprehensive scenarios, campaign modes, a sandbox mode, multiplayer and modding tools, in addition to a historical recreation of several decades of the ancient Roman Imperial era, including The Punic Wars and Punic Wars. Players will command armies of more than 20 unique units, including cavalry and marine infantry, with the ability to deploy sea units and lead their ships along a trade route. The combat system in Total War: Rome 2 is card-based, where players will need to have a strategy in order to win. Total War: Rome 2 comes with a big list of historical units, including 60 playable generals, more than 10,000 pieces of equipment, 30 map locations, and is a light to moderate unit of gameplay. Combat takes place on the strategic layer, where games consist of tactics, such as movement and combat. Units are controlled by the player, who can zoom the camera into the battlefield and support units by managing units from a strategic view. Total War: Rome 2 was the highest-grossing PC game in the UK for 2012, recording 1.8 million. Total War: Rome 2 is also the first Total War game to be advertised on an integrated TV program, with the show House of Cards, throughout 2013. Following its release, the success of Total War: Rome 2 allowed Eugen to continue the title's development under the title Turn Based Strategy: Rome 2, which was
